NEW second location
in New Castle, PA!

MELINA'S Story:

On May 22, 2020, the lives of the Edenfield family changed in an unimaginable way, when their youngest of three daughters, Melina Michelle Edenfield — a joyful, energetic, and brilliant little four-year-old — was diagnosed with a deadly childhood brain tumor called Diffuse Midline Glioma (DMG).

Despite initial hope from the doctors that radiation treatment might extend her already limited prognosis, the tumor was one of the most aggressive the doctors had seen, and just a month and two days later — on June 24, 2020 — the tumor took sweet little Melina's life.

The Melina Michelle Edenfield foundation was established in her memory to help find a cure for this terrible disease. All proceeds go directly toward research.

OUR MISSION:

Upon Melina's diagnosis, we learned that childhood cancer research is severely underfunded, receiving less than 4% of all money raised for cancer research. Less than 1% of that total goes toward pediatric brain tumor research, equating to only \$500 per child diagnosed. With Melina's approval we knew we needed to make a change.

Our Mission, Our Dedication, Our Quest of the Melina Michelle Edenfield Foundation is to find a cure for pediatric brain tumors.

The Foundation will accomplish its mission by raising money and awareness for this terrible affliction, and partnering with others to direct that money to the latest research and development of cutting edge treatments and medical technologies.

Melina, who died of a DMG pediatric brain tumor at age of 4 ½, was her family's miracle for 4 ½ years. Through her foundation, her family believes she will be the miracle for other families forever.

MELINA'S TEAM:

President: Michelle Edenfield

Vice President/Co-Founder: Keith Edenfield

Co-Founder: Ken Popovec

Treasurer: Julianne Linderman

Secretary: Brandy Gilea

Medical Advisor: Dr. Erin Wright

Board Members:

Mallory Capretta Kate Popovec-Goss

Jessica Irwin Monica Simko
